

Trusted 2 Million Times by Surgeons Worldwide

The Acutrak Advantage

Acutrak technology produced **the first and still the only** continuously variable thread pitch headless compression screw on the market.

Excellence, Backed by Evidence

More than 2 million Acutrak family screws have been implanted since 1994, **supported by more than 100 publications**, including clinical and biomechanical studies.

Often Imitated, Never Duplicated

Acumed's **engineering know-how and manufacturing skill** have forged a legacy of Acutrak quality based on a quarter-century of expertise.
